

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE  
Transcriber's Office

February 10, 1998 LB 395

SENATOR CROSBY: One minute.

SPEAKER KRISTENSEN: ...the statute talks about it, the proposed statute talks about the regulatory authority's got to approve that action that was taken. So there's two steps here, one is that if during that 60 days you could fix it and they say, well, no, you really didn't...

SENATOR CHAMBERS: Um-hum.

SPEAKER KRISTENSEN: ...there's also a phrase they can't unreasonably withhold that. What that really is is a trigger, that then becomes at issue in dispute, that will be the one that gets litigated as to was it reasonable...

SENATOR CHAMBERS: But...

SPEAKER KRISTENSEN: ...was the time period...

SENATOR CHAMBERS: Okay, because I have just a few seconds, after the 60 days, we begin...the immunity is lifted in any case unless you have submitted a proposal to deal with the situation. If you corrected it, we don't even have to worry.

SPEAKER KRISTENSEN: Providing the correction was approved, yes.

SENATOR CHAMBERS: Okay, and I have my light on because I may need just a little more to wind it up.

SENATOR CROSBY: Thank you, Senator Chambers. Before continuing the debate, Senator Jerry Willhoft has as his guests today under the north balcony ten members of the Round Table Club from Central City and Lincoln, and among them is the Senator's wife, Shirley. Would you all stand and be welcomed by your Legislature. Thank you. On the...continuing on the Dierks amendment, Senator Preister, followed by Dierks, Schimek, Beutler, and Chambers.

SENATOR PREISTER: Thank you, Honorable President. I rise to support Senator Dierks' amendment. I think he very clearly sees the potential for what could happen with this legislation.
